

*Shown with Bookwork Kinderbox Browser and Seats*

## StoryWall

A magical oasis where children can indulge their imaginations, StoryWall creates an immediate "wow factor" in any library space. Choose from a variety of modules to fit your space and vision.

Each module is 36" wide, 24" deep, and 60" high (or 92"h if you add a Fascia or Storage Topper) with the exception of the Media Space, which measures 60"w x 24"d x 92"h (no Topper)

## Designing Your StoryWall

1. Download the StoryWall Sketch Pad from [fglibrary-us.com](http://fglibrary-us.com) to help lay out your StoryWall.
2. Determine the number of modules needed based on the length of your wall, divided by 36" for each module (if your StoryWall includes a Media Space module, add 24" to the total to accommodate its 60" width). If your wall length is not precisely divisible by 36", a laminate end panel can be ordered to create a finished end.
3. Consider your book shelving and display needs first and review the capacity for each of the shelving/display modules (Book Shelving, Waterfall Browser, Browser Display) to finalize these modules.
4. Evaluate your need for additional storage for instruments, and other instructional, play, or performance items. Utilize a base Storage Cabinet and/or select Cabinet Toppers for some or all units. Otherwise, opt for the more economical Fascia Topper.
5. Add a Desk Unit if your space requires a work surface for staff, volunteers, or kids.
6. Use the remaining modules for discovery and creation, choosing from the Scribble Wall, Hideaway, Story Chair, Media Space, Cubby Storage, and Discovery Units.
7. The StoryWall shell comes in white as standard. For modules or toppers including dots, choose 2 paint colors from 12 standards. 1 trim color (around Hideaway, Story Chair, Media Space, Desk, or Scribble Wall) will be chosen from these same paint colors. For modules with shelves, choose 1 laminate from 20 standards. For Hideaway and Story Chair, select a Grade 1 upholstery or vinyl from over 80 choices. Custom paint colors, laminates, and textiles quoted upon request.

# StoryWall Storage, Shelving & Display Modules

## Book Shelving

FGLSTO01  
36"w x 24"d x 60"h (92"h w/topper)

## STORYWALL

### INSTALLATION

StoryWall modules ship assembled.

Toppers are screwed to base modules on-site. Modules are screwed to adjacent modules and to the wall for stability. A 6" void is created behind the base module as an electrical chase.

Base modules include a 4" removable toe kick and adjustable feet.
